Adani's Lankan Port JV to Get \$553 m

IN A FIRST US' International Development Finance offers a project-backed loan with a tenure of 20 years

Colombo: The contours of Adani Ports & SEZ's record investment in a Colombo port broadened Wednesday with the US International Development Finance Corporation (DFC) announcing its funding into the project.

DFC will lend \$553 million (about ₹4,590 crore) to Colombo West International Terminal (CWIT) — a consortium of India's largest port operator Adani Ports and SEZ, Sri Lanka's leading enterprise John Keells Holdings (JKH) and the Sri Lanka Ports Authority. Adani owns 51% of the consortium. It's a project-backed loan with a tenure of 20 years.

The project cost for the first phase is \$650 million. It will be completed by December 2024. The total project cost—including another phase—is \$1.1 billion.

"Investment into this port is the largest chunk of foreign direct investment that has ever come into

Sri Lanka. DFC, the US government's development finance institution, partners with the private sector to finance some of the most critical challenges facing the developing world. It invests across sectors, including energy, healthcare, infrastructure, agriculture and small business and financial services.

"This is the first time that the US government, through one of its agencies, is funding an Adani project," Adani Group said in a statement.

The investment assumes significance especially after allegations of irregular practices by an American short seller Hinesburgly wiped out large swathes of Adani's market value earlier this year. It also underlines America's efforts to counter China's growing investment and expansion in Sri Lanka.

"We welcome the association of

the US International Development Finance Corporation, the US government's development finance institution, in funding the Adani project—and we see this as a reaffirmation by the international community of our vision, our capabilities and our governance," said Karan Adani, whole-time director and CEO of Adani Ports and Special Economic Zone.

"As one of the world's largest port developers and operators, APSEZ brings to this project not only our proven world-class expertise but also our deep experience in infrastructure creation. When completed, Colombo West International Terminal project will transform the socio-economic landscape, not just in Colombo but across the island, through thousands of direct and indirect new employment opportunities and by massively boosting Sri Lanka's trade and commerce ecosystem," he added.

"The Port of Colombo is the largest and busiest transshipment port in

the Indian Ocean. It has been operating at more than 80% utilisation since 2021, signalling its need for additional capacity.

The new terminal will cater to growing economies in the Bay of Bengal, taking advantage of Sri Lanka's prime position on major shipping routes and its proximity to those expanding markets.

"DFC works to drive private sector investments that advance development and economic growth while strengthening strategic positions of our partners. That's what we're delivering with this infrastructure investment in the Port of Colombo," said DFC CEO Scott Nathan.

The consortium will develop CWIT on a build, operate and transfer (BOT) basis for a period of 35 years. When commissioned, CWIT will be the largest and deepest container terminal in Sri Lanka. With a quay length of 1,400 m and an alongside depth of 20 m, it will be equipped to handle ultra large container vessels with capacities of 24,000 TEUs.

ENIL Records Net Profit of ₹6.9 crore in Q2

Mumbai: Entertainment Network India (ENIL), the operator of the country's top FM radio channel, Radio Mirchi, has achieved a net profit of ₹6.9 crore in Q2 FY24, compared with a loss of ₹8 crore in the year ago period.

The company's EBITDA increased 4.9% to ₹20.7 crore, compared with ₹19.7 crore a year ago. It added that the EBITDA for existing businesses has improved by 170 basis points.

One basis point is a hundredth of a percentage point.

The company's revenue for the quarter declined 2.5% to ₹101.1 crore primarily on account of a delay in the festive season this year.

Revenue from the digital segment was ₹7.1 crore, contributing 10.1% of PCT revenues due to the expansion of viewership on the Mirchi Fit platform and other digital assets.

Last month, the ENIL board also approved the execution of the Business Transfer Agreement (BTA) with Gamma Gamma Limited for the acquisition of business undertakings relating to the business of hosting music audio content and licensing and streaming services under the brand 'Gaana'.

The company said that this takeover unlocks multiple avenues of digital transformation for ENIL.

On the international side, ENIL won the bid in Bahrain at revised license fees, which will aid profitability. Overall, the international business continues to be profitable this year, with a positive PAT of ₹94 lakh in Q2 FY24 and ₹1.27 crore in H2 FY24. ENIL's cash reserves were ₹251 crore as of September 30, 2023, demonstrating the company's healthy balance sheet.

"Commenting on the developments, ENIL CEO Yashish Meherishi said, "We are pleased to announce noteworthy enhancement in profitability which can be attributed to our ongoing cost rationalization initiatives."

JSW Infrastructure Looking to Explore Port Privatisation Opportunities: Jt MD

Co also eyeing mega transshipment port project at Galathea bay, says Maheshwari

Mumbai: JSW Infrastructure, India's second biggest port operator by volumes, is keen to explore port privatisation opportunities being opened up by the government and is also exploring the mega transshipment port project at Galathea bay in the Great Nicobar Island, its joint managing director said in a recent interview.

"The way the government is opening up opportunities in India is enormous. And as the second largest port company in India with a strong balance sheet and aptitude to grow in this sector, we would look at every big opportunity in the ports sector," Arun Maheshwari, also the CEO of the Sajjan Jindal-led JSW Group company, told ET.

"We are exploring it (Galathea) but aren't 100% sure whether we will go ahead with it," he added.

JSW Infrastructure is reportedly among 10 companies, including Dutch designing contractor Royal Boskalis Westminster NV, Rail Vikas Nigam, Container Corporation of India and Essar Ports that have submitted expressions of interest for the project.

TK Ramachandran, secretary, ministry of shipping, recently told ET that the project would be worth ₹65,000-85,000 crore. JSW Infrastructure operates nine state port concessions located on the west and east coasts of India. The company that gets almost its entire business from the bulk segment plans to expand its container and liquid portfolios, such that non-bulk cargo accounts for a third of its revenues in the coming years.

"We are recent entrants into the container and liquid segments. We got into the container segment only two years back," said Maheshwari, adding the container segment currently accounts for just 2% of its volumes.

It also signed a share purchase agreement with MPT Commodities (part of the Mercuria Group, Switzerland), to acquire a liquid storage facility of 465,000 cubic meters in operations business by acquiring the container train operator (CTO) licence of Sical Multimodal and Rail Transport from Pristine Logistics & InfraProjects.

It also signed a share purchase agreement with MPT Commodities (part of the Mercuria Group, Switzerland), to acquire a liquid storage facility of 465,000 cubic meters in operations business by acquiring the container train operator (CTO) licence of Sical Multimodal and Rail Transport from Pristine Logistics & InfraProjects.

As the 2nd largest port co in India with a strong balance sheet & aptitude to grow in this sector, we would look at every big opportunity in the ports sector

With ₹7k crore in Cash Reserves, Dabur Scouting for Acquisitions

Co also scaling up its presence online, where it plans to introduce more innovations

New Delhi: Homegrown FMCG maker Dabur India, armed with a cash reserve of ₹7,000 crore, is scouting for acquisition opportunities in health care and home & personal care segments, according to its CEO Mohi Malhotra.

Besides, Dabur is looking for acquisition opportunities in the online space, and with several D2C (Direct to Consumer) brands operating in it. It finds the valuation "more reasonable" now and will pursue it if it finds a suitable one for growth, he said.

The company is scaling its presence in the online space, which includes e-commerce channels and D2C business, where it plans to introduce more innovations under existing brands and through inorganic acquisitions.

"We are introducing innovations there. Those innovations are coming on the back of existing

brands and these innovations will come on the back of some new brands that we might launch or we are looking at an acquisition for a new brand," Malhotra told ET.

The company would pursue organic growth with new brand launches in skin care and premium skin care, and the rest would be through acquisitions.

"We do not want to do any organic new brand launches with the exception of skincare and premium skincare that we are not present in. That is where we might do an acquisition for which we have ₹7,000 crore lying in our balance sheet for that particular purpose," he said.

Malhotra also insisted that besides acquisition, innovation is also very important, which not only attracts younger or new-age consumers but also grows the lifecycle of a brand.

"It's a necessity," he said adding "if a brand has to evolve or grow, it has to have a newer avatar every two to three years, only then will the brand grow."

All the nine power brands of Dabur India, would "have to evolve and go through a cycle of evolution. That is what we are doing."

Dabur has nine power brands; eight in India and one in the overseas markets, which together account for 70% of its total sales.

The brands are: Dabur Chyawanprash, Dabur Honey, Dabur Bonus, Dabur Pudin'ara, Dabur Lal Taili, Dabur Amla, Dabur Red Paste, Real and Vatika.

Its pure brand Real's revenue is around ₹1,700 crore and the company wants to take it to ₹2,000-2,500 crore in the next five years.

The brand should trend around 15 per cent CAGR, which we have, so we should be able to double the turnover in six years time with this brand," he said.

Besides, it has three ₹1,000 crore brands: Dabur Amla, Dabur Red and Vatika, which Malhotra expects to increase to ₹1,500 crore.
